

MOSAIC

We were lucky to welcome a talented artist to Elmgrove this summer for a week of inspiring mosaic workshops. The children learned about the history of mosaics and discovered the skills and tools needed to create them. As a whole school, we worked together to produce our own stunning mosaic, celebrating our community and the sense of belonging we strive to nurture for every child. The finished piece also reflects the many artistic opportunities available at Elmgrove, including music, art clubs, and a range of creative experiences.
